Title and subject index for Volume 126, 2003

300-Hz subthalamic oscillations in Parkinson's disease (Foffani *et al.*), 2153

Abnormal associative plasticity of the human motor cortex in writer's cramp (Quartarone *et al.*), 2586
Abnormal corticomuscular and intermuscular coupling in high-frequency rhythmic myoclonus (Grosse *et al.*), 326
Abnormal sodium channel distribution in optic nerve axons in a model of inflammatory demyelination (Craner *et al.*), 1552
Abnormalities in hippocampi remote from the seizure focus: a T_2 relaxometry study (Scott *et al.*), 1968
Abnormalities of motor cortex excitability preceding movement in patients with dystonia (Gilio *et al.*), 1745
Abnormalities of spatial discrimination in focal and generalized dystonia (Molloy *et al.*), 2175
Absence of auditory 'global interference' in autism (Foxton *et al.*), 2703
Activity-dependent hyperpolarization and impulse conduction in motor axons in patients with carpal tunnel syndrome (Cappelen-Smith *et al.*), 1001

Adrenergic receptor gene expressions of neurodegeneration (Yun *et al.*), 2667
Affective blindsight: intact fear conditioning to a visual cue in a cortically blind patient (Hamm *et al.*), 267
Afferent inhibition in Parkinson's disease (Sailer *et al.*), 1883
Age effects on the neural correlates of successful memory encoding (Morcom *et al.*), 213
Age-related changes in the neural correlates of motor performance (Ward and Frackowiak), 873
Ageing and episodic memory (Daselaar *et al.*), 43
Aging affects the engagement of the hippocampus during autobiographical memory retrieval (Maguire and Frith), 1511
Agnosia for mirror stimuli (Priftis *et al.*), 908
Agnosia, visual form (James *et al.*), 2463
Akinesia and MPTP-treated monkey (Escola *et al.*), 95
Alexithymia, facial expressions processing (Kano *et al.*), 1474
Allodynia and pain modulation (Bouhassira *et al.*), 1068
Allodynia in spinal cord injury (Finnerup *et al.*), 57
Allodynia, pain and prefrontal cortex (Lorenz *et al.*), 1079
Alpha 1B adrenergic receptor genes in neurodegeneration (Yun *et al.*), 2667
Alpha-synuclein gene in Parkinson's disease (Kobayashi *et al.*), 32
Altered expression patterns of group I and II metabotropic glutamate receptors in multiple sclerosis (Geurts *et al.*), 1755
Alzheimer's disease and anti-β-amyloid antibodies (Du *et al.*), 1935
Alzheimer's disease and homocysteine (den Heijer *et al.*), 170
Alzheimer's disease and mild cognitive impairment (Lambon Ralph *et al.*), 2350
Alzheimer's disease, episodic memory (Chételat *et al.*), 1955
Alzheimer's disease, idiom comprehension (Papagno *et al.*), 2419
Alzheimer's disease, semantic memory difficulty (Grossman *et al.*), 292
Alzheimer's disease, spatial disorientation (Kavcic and Duffy), 1173
Alzheimer's disease with spastic paraparesis and 'cotton wool' plaques: two pedigrees with PS-1 exon 9 deletions (Brooks *et al.*), 783
Alzheimer's mouse model, amyloid-β peptide vaccination
Amnesia, autobiographical, in dementia (Piolino *et al.*), 2203
Amnesia, following unilateral temporal lobectomy (Kapur and Prevett), 2573
Amnesia, transient global (Quinette *et al.*), 1917
Amputation and body awareness (Hunter *et al.*), 579
Amygdala, affect, and cognition: evidence from 10 patients with Urbach–Wiethe disease (Siebert *et al.*), 2627
Amygdala development and X-linked locus (Good *et al.*), 2431
Amygdala in epilepsy odour memory (Hudry *et al.*), 1851
Amyloid beta antibodies in Alzheimer's disease (Du *et al.*), 1935
Amyloid-β peptide-induced encephalomyelitis (Furlan *et al.*), 285
Amyotrophic lateral sclerosis, central motor conduction (Mills), 2558
Analyses of all matrix metalloproteinase members in leukocytes emphasize monocytes as major inflammatory mediators in multiple sclerosis (Bar-Or *et al.*), 2738
Anatomical correlates of dyslexia: frontal and cerebellar findings (Eckert *et al.*), 482
The anatomy of visual neglect (Mort *et al.*), 1986
Anterior cingulate cortex in schizophrenia (Laurens *et al.*), 610
Anti-β-amyloid antibodies in Alzheimer's disease (Du *et al.*), 1935
Aphasia evidence for sounds and language processing (Saygin *et al.*), 928
Aphasia, progressive non-fluent (Nestor *et al.*), 2406
Aphasia, singing and speaking (Hébert *et al.*), 1838
Appearance of reciprocal facilitation of ankle extensors from ankle flexors in patients with stroke or spinal cord injury (Crone *et al.*), 495
Aspects of joint coordination are preserved during pointing in persons with post-stroke hemiparesis (Reisman and Scholz), 2510
Ataxia, autosomal dominant spinocerebellar (Chung *et al.*), 1293
Ataxia, gluten (Hadjivassiliou *et al.*), 685
Ataxia, gluten (Hadjivassiliou and Grünewald), E5 (in Part 9)
Ataxia, gluten (Wills and Unsworth), E4 (in Part 9)
Ataxia with oculomotor apraxia type 1 (Le Ber *et al.*), 2761
Attention in Parkinson's disease (Poliakoff *et al.*), 2081
Attentional dynamics and visual perception: mechanisms of spatial disorientation in Alzheimer's disease (Kavcic and Duffy), 1173
Auditory evoked potentials in migraine (Ambrosini *et al.*), 2009
Auditory 'global interference' in autism (Foxton *et al.*), 2703
Auditory neuropathy with *MPZ* mutation (Starr *et al.*), 1604
Auditory plasticity after cochlear damage (Thai-Van *et al.*), 2235
Auditory verbal hallucinations (Hunter *et al.*), 161
Autism, auditory 'global interference' (Foxton *et al.*), 2703
Autism, brain volume dissociations (Herbert *et al.*), 1182
Autobiographical memory, ageing and hippocampus (Maguire and Frith), 1511
Autobiographical memory and autonoetic consciousness: triple dissociation in neurodegenerative diseases (Piolino *et al.*), 2203
Autoimmune encephalomyelitis, induced (Furlan *et al.*), 285
Autoimmunoreactivity to Schwann cells in patients with inflammatory neuropathies (Kwa *et al.*), 361
Autonomic control and cingulate cortex (Critchley *et al.*), 2139
Autosomal dominant restless legs syndrome maps on chromosome 14q (Bonati *et al.*), 1485
Axon pathology in multiple sclerosis (Wolswijk and Balesar), 1638
Axonal damage: a key predictor of outcome in human CNS diseases [review] (Medana and Esiri), 515
Axonal damage, early in multiple sclerosis (Filippi *et al.*), 433
Axonal hyperpolarization in carpal tunnel syndrome (Cappelen-Smith *et al.*), 1001
Axonal loss in multifocal motor neuropathy (Van Asseldonk *et al.*), 186

B lymphocytes in the normal brain: contrasts with HIV-associated lymphoid infiltrates and lymphomas (Anthony *et al.*), 1058
Basal ganglia and kinaesthesia (Maschke *et al.*), 2312
Behavioural cues are associated with modulations of synchronous oscillations in the human subthalamic nucleus (Williams *et al.*), 1975
Benign familial neonatal convulsions (Singh *et al.*), 2726
Bickerstaff's brainstem encephalitis: clinical features of 62 cases and a subgroup associated with Guillain–Barré syndrome (Odaka *et al.*), 2279
Bilateral deficits of transient visual attention in right parietal patients (Battelli *et al.*), 2164

Black holes in multiple sclerosis (Bagnato *et al.*), 1782
Blindness and semantic organization (Noppeney *et al.*), 1620
Blindsight, affective (Hamm *et al.*), 267
Blocking effects of serum reactive antibodies induced by glatiramer acetate treatment in multiple sclerosis (Salama *et al.*), 2638
Body image distortions from regional anaesthesia (Paqueron *et al.*), 702
Brain atrophy and homocysteine in non-demented elderly (den Heijer *et al.*), 170
Brain damage in newborns, iron predictor (Buonocore *et al.*), 1224
Brain injury mapped to normal function (Crafton *et al.*), 1650
Brain, occipito-temporal connections (Catani *et al.*), 2093
Brain processing of facial expressions in alexithymia (Kano *et al.*), 1474
Brain volume dissociations in autism (Herbert *et al.*), 1182
Brainstem coma (Parvizi and Damasio), 1524
Brainstem encephalitis, Bickerstaff's (Odaka *et al.*), 2279

C-fibre trigeminal function (Cruccu *et al.*), 2246
C-fibres and pain (Ørstavik *et al.*), 567
California Verbal Learning Test: performance by patients with focal frontal and non-frontal lesions (Alexander *et al.*), 1493
Callosotomy and left hand dyspraxia (Lausberg *et al.*), 343
Calpain inhibitors protect against axonal degeneration in a model of anti-ganglioside antibody-mediated motor nerve terminal injury (O'Hanlon *et al.*), 2497
Cannabinoids inhibit neurodegeneration in models of multiple sclerosis (Pryce *et al.*), 2191
Cannabis and the brain [review] (Iversen), 1252
Carpal tunnel syndrome, axonal hyperpolarization (Cappelen-Smith *et al.*), 1001
Caspr in multiple sclerosis (Wolswijk and Balesar), 1638
Caudate and thalamus in motor control (Aron *et al.*), 713
cDNA microarray analysis in multiple sclerosis lesions: detection of genes associated with disease activity (Mycko *et al.*), 1048
Central core disease with fetal akinesia (Romero *et al.*), 2341
Central nervous system diseases, axonal damage (Medana and Esiri), 515
Central nervous system inflammation is a hallmark of pathogenesis in mouse models of GM1 and GM2 gangliosidosis (Jeyakumar *et al.*), 974
Central nervous system remyelination by cell transplant (Lakatos *et al.*), 598
Central nervous system tumours in Neurofibromatosis 1 (Guillamo *et al.*), 152
Cerebellar ataxia and paraneoplastic cerebellar degeneration (Shams'ili *et al.*), 1409
Cerebellar ataxia, autosomal dominant SCA22 (Chung *et al.*), 1293
Cerebellar ataxia with oculomotor apraxia type 1: clinical and genetic studies (Le Ber *et al.*), 2761
Cerebellar lesions and eyeblink conditioning (Gerwig *et al.*), 71
Cerebellar tumours in childhood (Steinlin *et al.*), 1998
Cerebral cortex thickness in multiple sclerosis (Sailer *et al.*), 1734
The cerebral oscillatory network of parkinsonian resting tremor (Timmermann *et al.*), 199
Cerebral plasticity in multiple sclerosis (Parry *et al.*), 2750
Cerebral small vessel disease, endothelial dysfunction (Hassan *et al.*), 424
Cerebrospinal fluid in brain development (Owen-Lynch *et al.*), 623
Cerebrospinal fluid marker in multiple sclerosis (Lassmann *et al.*), 1347
Cervical input sensitisation and dural stimulation (Bartsch and Goadsby), 1801
Changes in emotion after circumscribed surgical lesions of the orbitofrontal and cingulate cortices (Hornak *et al.*), 1691
Changes in propriospinally mediated excitation of upper limb motoneurons in stroke patients (Mazevet *et al.*), 988
Changes in the expression and localization of the paranodal protein Caspr on axons in chronic multiple sclerosis (Wolswijk and Balesar), 1638
Charcot–Marie–Tooth disease and *NEFL* mutations (Jordanova *et al.*), 590
Charcot–Marie–Tooth disease, myelin-related protein mutations (Hattori *et al.*), 134
Charcot–Marie–Tooth mice, reduced neuropathy (Kobsar *et al.*), 804
Charcot–Marie–Tooth neuropathy, *GDAP1* mutations (Senderek *et al.*), 642
Charcot–Marie–Tooth neuropathy with vocal cord palsy (Sevilla *et al.*), 2023
Childhood absence epilepsy and febrile seizures: a family with a $GABA_A$ receptor mutation (Marini *et al.*), 230
Childhood epilepsies, SCN1A mutations (Fujiwara *et al.*), 531
Childhood epilepsy, hemispherectomy (Devlin *et al.*), 556
Chronic progressive external ophthalmoplegia (Bosbach *et al.*), 1231
Chronic relapsing inflammatory optic neuropathy (CRION) (Kidd *et al.*), 276
Cingulate cortex and autonomic control (Critchley *et al.*), 2139
Clinical and molecular findings in a patient with a novel mutation in the deafness–dystonia peptide (DDP1) gene (Binder *et al.*), 1814
Clinical and neuroinflammatory responses to meningoencephalitis in substance P receptor knockout mice (Kennedy *et al.*), 1683
Clinical correlates with anti-MuSK antibodies in generalized seronegative myasthenia gravis (Evoli *et al.*), 2304
Clinical, electrophysiological and morphological findings of Charcot–Marie–Tooth neuropathy with vocal cord palsy and mutations in the *GDAP1* gene (Sevilla *et al.*), 2023
Clinical outcomes of hemispherectomy for epilepsy in childhood and adolescence (Devlin *et al.*), 556
Clonic seizures, electrophysiology (Hamer *et al.*), 547
Cochlear hearing loss and auditory plasticity (Thai-Van *et al.*), 2235
Cognition in old age and early head growth (Gale *et al.*), 2273
Cognitive impairment and Alzheimer's disease (Lambon Ralph *et al.*), 2350
Coma, brainstem (Parvizi and Damasio), 1524
Comparison of eyeblink conditioning in patients with superior and posterior inferior cerebellar lesions (Gerwig *et al.*), 71
Comparison of the pain suppressive effects of clinical and experimental painful conditioning stimuli (Bouhassira *et al.*), 1068
Configurational processing in progressive prosopagnosia (Joubert *et al.*), 2537
Congenital hemiplegia (Duque *et al.*), 732
Contactin-associated protein in multiple sclerosis (Wolswijk and Balesar), 1638
Conventional and magnetization transfer MRI predictors of clinical multiple sclerosis evolution: a medium-term follow-up study (Rovaris *et al.*), 2323
Conversion of semantic information into phonological representation: a function in

left posterior basal temporal area (Usui *et al.*), 632
Copaxone effects in multiple sclerosis (Salama *et al.*), 2638
Correlation between impaired dexterity and corticospinal tract dysgenesis in congenital hemiplegia (Duque *et al.*), 732
Cortical correlates of vestibulo-ocular reflex modulation: a PET study (Naito *et al.*), 1562
Cortical development in hydrocephalic rat (Owen-Lynch *et al.*), 623
Cortical excitability after stroke (Bütefisch *et al.*),470
Cortical excitability in dystonia (Gilio *et al.*), 1745
Cortical injury mapped to normal function (Crafton *et al.*), 1650
Cortico-striato-thalamic system and dopaminergic drugs (Honey *et al.*), 1767
Corticobasal degeneration, with neurofilament proteins (Josephs *et al.*), 2291
Corticospinal tract and dexterity in congenital hemiplegia (Duque *et al.*), 732
Cotton wool plaques in familial Alzheimer's disease (Brooks *et al.*), 783
Creutzfeldt–Jakob disease, sporadic (Hill *et al.*), 1333
Creutzfeldt–Jakob disease, variant (Kapur *et al.*), 2693
CRION (Kidd *et al.*), 276
Cutaneous innervation in Guillain–Barré syndrome: pathology and clinical correlations (Pan *et al.*), 386
Cx32 mutations in Charcot–Marie–Tooth disease (Hattori *et al.*), 134

Deafness–dystonia peptide gene mutation (Binder *et al.*), 1814
Decisional role of the dorsolateral prefrontal cortex in ocular motor behaviour (Pierrot-Deseilligny *et al.*), 1460
Deep brain stimulation in Parkinson's disease (Foffani *et al.*), 2153
Defective cell cycle control underlies abnormal cortical development in the hydrocephalic Texas rat (Owen-Lynch *et al.*), 623
Dementia, frontotemporal, and tau gene mutations (Stanford *et al.*), 814
Dementia, frontotemporal, and tau-positive glia (Schofield *et al.*), 827
Dementia, frontotemporal, population study (Rosso *et al.*), 2016
Demyelinating and axonal features of Charcot–Marie–Tooth disease with mutations of myelin-related proteins (PMP22, MPZ and Cx32): a clinicopathological study of 205 Japanese patients (Hattori *et al.*), 134
Demyelination and axonal loss in multifocal motor neuropathy: distribution and relation to weakness (Van Asseldonk *et al.*), 186
Demyelination and remyelination in rat CNS (Penderis *et al.*), 1382
Demyelination model, sodium channels (Craner *et al.*), 1552
Depletion of ventromedullary NK-1 receptor-immunoreactive neurons in multiple system atrophy (Benarroch *et al.*), 2183
Devic's disease, glatiramer acetate treatment (Bergamaschi), E1 (in Part 6)
Devic's disease, glatiramer acetate treatment (Gold and Linington), E1 (in Part 6)
Dexterity in congenital hemiplegia (Duque *et al.*), 732
Diabetic neuropathy and neurotrophin-3 (Middlemas *et al.*), 1671
Diabetic neuropathy, multifocal (Said *et al.*), 376
Diaphragmatic weakness in infantile neuropathy (Pitt *et al.*), 2682
Different patterns of electrophysiological deficits in manifesting and non-manifesting carriers of the *DYT1* gene mutation (Edwards *et al.*), 2074
Different patterns of parasympathetic activation in uni- and bilateral migraineurs (Avnon *et al.*), 1660
Differential gene expression analysis of multiple sclerosis lesions (Mycko *et al.*), 1048
Differential remoteness and emotional tone modulate the neural correlates of autobiographical memory (Piefke *et al.*), 650
Disruption of information processing in the supplementary motor area of the MPTP-treated monkey: a clue to the pathophysiology of akinesia? (Escola *et al.*), 95
Dissociating atrophy and hypometabolism impact on episodic memory in mild cognitive impairment (Chételat *et al.*), 1955
Dissociations of cerebral cortex, subcortical and cerebral white matter volumes in autistic boys (Herbert *et al.*), 1182
Distinct time pattern of complement activation and cytotoxic T cell response in Guillain–Barré syndrome (Wanschitz *et al.*), 2034
Dominant and recessive central core disease associated with *RYR1* mutations and fetal akinesia (Romero *et al.*), 2341
Dopamine receptor dysfunction in Huntington's disease (Pavese *et al.*), 1127
Dopamine release and transcranial magnetic stimulation (Strafella *et al.*), 2609
Dopamine release during sequential finger movements in health and Parkinson's disease: a PET study (Goerendt *et al.*), 312
Dopaminergic drug effects on physiological connectivity in a human cortico-striato-thalamic system (Honey *et al.*), 1767
Dosage sensitive X-linked locus influences the development of amygdala and orbitofrontal cortex, and fear recognition in humans (Good *et al.*), 2431
Drug targeting by long-circulating liposomal glucocorticosteroids increases therapeutic efficacy in a model of multiple sclerosis (Schmidt *et al.*), 1895
[^{11}C]DTBZ-PET correlates of levodopa responses in asymmetric Parkinson's disease (Kumar *et al.*), 2648
Dual representation of pain in the operculo-insular cortex in humans (Frot and Mauguière), 438
Dural stimulation and cervical input sensitisation (Bartsch and Goadsby), 1801
Dysfunction of the basal ganglia, but not the cerebellum, impairs kinaesthesia (Maschke *et al.*), 2312
Dyslexia, anatomical correlates (Eckert *et al.*), 482
Dyslexia, developmental (Ramus *et al.*), 841
Dyslexia, visual magnocellular deficits (Amitay *et al.*), E3 (in Part 9)
Dyslexia, visual magnocellular deficits (Chase and Stein), E2 (in Part 9)
Dyspraxia of left hand in complete callosotomy (Lausberg *et al.*), 343
Dystonia, cortical excitability (Gilio *et al.*), 1745
Dystonia, focal arm, and TMS (Siebner *et al.*), 2710
Dystonia, from *DYT1* gene mutation (Edwards *et al.*), 2074
Dystonia, local field potentials (Silberstein *et al.*), 2597
Dystonia, sensory discrimination (Molloy *et al.*), 2175
DYT1 gene mutation carriers, electrophysiology (Edwards *et al.*), 2074

Early clinical predictors and progression of irreversible disability in multiple sclerosis: an amnesic process (Confavreux *et al.*), 770
Effect of chronic bilateral subthalamic nucleus (STN) stimulation on postural control in Parkinson's disease (Maurer *et al.*), 1146
The effect of negative emotional context on neural and behavioural responses to

oesophageal stimulation (Phillips *et al.*), 669
The effect of tactile and visual sensory inputs on phantom limb awareness (Hunter *et al.*), 579
Effects of visual deprivation on the organization of the semantic system (Noppeney *et al.*), 1620
Electrophysiology of focal clonic seizures in humans: a study using subdural and depth electrodes (Hamer *et al.*), 547
Emotion and prefrontal cortex (Hornak *et al.*), 1691
Emotion in Urbach–Wiethe disease (Siebert *et al.*), 2627
Emotional and social intelligence (Bar-On *et al.*), 1790
Emotional context of responses to visceral sensation (Phillips *et al.*), 669
Emotional factor in autobiographical memory (Piefke *et al.*), 650
Encephalitis, Bickerstaff's (Odaka *et al.*), 2279
Encephalomyelitis, induced (Furlan *et al.*), 285
Endothelial dysfunction in lacunar infarction (Hassan *et al.*), 424
Enhanced activation of axonally transported stress-activated protein kinases in peripheral nerve in diabetic neuropathy is prevented by neurotrophin-3 (Middlemas *et al.*), 1671
Enhanced frequency discrimination near the hearing loss cut-off: a consequence of central auditory plasticity induced by cochlear damage? (Thai-Van *et al.*), 2235
Epilepsies of childhood, SCN1A mutations (Fujiwara *et al.*), 531
Epilepsies, occipital (Taylor *et al.*), 753
Epilepsy and cortical pain representation (Frot and Mauguière), 438
Epilepsy and magnetic source imaging (Stefan *et al.*), 2396
Epilepsy and thalamus imaging (Bernasconi *et al.*), 2447
Epilepsy, childhood absence, and $GABA_A$ receptor mutation (Marini *et al.*), 230
Epilepsy, focal clonic seizures (Hamer *et al.*), 547
Epilepsy from *OPHN1* mutation (Bergmann *et al.*), 1537
Epilepsy in childhood, hemispherectomy (Devlin *et al.*), 556
Epilepsy in children and ictal SPECT (Kaminska *et al.*), 248
Epilepsy, neocortical (Hammers *et al.*), 1300
Epilepsy, neonatal, and potassium channel genes (Singh *et al.*), 2726
Epilepsy, odour memory and amygdala activity (Hudry *et al.*), 1851
Epilepsy, partial, and hippocampal abnormalities (Scott *et al.*), 1968
Epilepsy, photosensitive (Parra *et al.*), 1164
Epilepsy, temporal lobe, mesial temporal damage (Bernasconi *et al.*), 462
Epileptic activity influences the speech organization in medial temporal lobe epilepsy (Janszky *et al.*), 2043
Epileptic fast intracerebral EEG activity: evidence for spatial decorrelation at seizure onset (Wendling *et al.*), 1449
Epileptic seizure prediction (Aschenbrenner-Scheibe *et al.*), 2616
Episodic encoding, age effects (Morcom *et al.*), 213
Episodic memory in dementia (Piolino *et al.*), 2203
Episodic memory in transient global amnesia (Quinette *et al.*), 1917
Episodic memory, neuroanatomy (Daselaar *et al.*), 43

Pain representation in operculo-insular cortex (Frot and Mauguière), 438
Pain, role of C-fibres (Ørstavik *et al.*), 567
Pantomime to visual presentation of objects: left hand dyspraxia in patients with complete callosotomy (Lausberg *et al.*), 343
Paraneoplastic cerebellar degeneration associated with antineuronal antibodies: analysis of 50 patients (Shams'ili *et al.*), 1409
Parietal lobe damage and visual attention (Battelli *et al.*), 2164
Parkin disease: a phenotypic study of a large case series (Khan *et al.*), 1279
Parkin mutations are frequent in patients with isolated early-onset parkinsonism (Periquet *et al.*), 1271
Parkinson's disease, 300-Hz subthalamic oscillations (Foffani *et al.*), 2153
Parkinson's disease, afferent inhibition (Sailer *et al.*), 1883
Parkinson's disease, alpha-synuclein gene (Kobayashi *et al.*), 32
Parkinson's disease and kinaesthesia (Maschke *et al.*), 2312
Parkinson's disease, dopamine release in sequential movement (Goerendt *et al.*), 312

Parkinson's disease, levodopa responses (Kumar *et al.*), 2648
Parkinson's disease, local field potentials (Silberstein *et al.*), 2597
Parkinson's disease, orienting of attention (Poliakoff *et al.*), 2081
Parkinson's disease: piecing together a genetic jigsaw [review] (Dekker *et al.*), 1722
Parkinson's disease, subthalamic nucleus stimulation (Maurer *et al.*), 1146
Parkinson's disease, unilateral subthalamotomy (Patel *et al.*), 1136
Parkinsonian monkeys, movement selection (Pessiglione *et al.*), 1392
Parkinsonian resting tremor (Timmermann *et al.*), 199
Pathological C-fibres in patients with a chronic painful condition (Ørstavik *et al.*), 567
Pathology and physiology of auditory neuropathy with a novel mutation in the *MPZ* gene (Tyr145Ser) (Starr *et al.*), 1604
Patients with focal arm dystonia have increased sensitivity to slow-frequency repetitive TMS of the dorsal premotor cortex (Siebner *et al.*), 2710
Patterning of globus pallidus local field potentials differs between Parkinson's disease and dystonia (Silberstein *et al.*), 2597
Perception and production of biological movement in patients with early periventricular brain lesions (Pavlova *et al.*), 692
Performance variability and frontal lobes (Stuss *et al.*), 2363
Perfusion changes in hippocampal sclerosis seizures (Van Paesschen *et al.*), 1103
Peripheral neuropathy and *NEFL* mutations (Jordanova *et al.*), 590
Peripheral opioid analgesia in experimental human pain models (Tegeder *et al.*), 1092
Periventricular brain lesions and biological movement (Pavlova *et al.*), 692
Phantom limb awareness, sensory inputs (Hunter *et al.*), 579
Pharmacologically modulated fMRI: cortical responsiveness to levodopa in drug-naive hemiparkinsonian patients (Buhmann *et al.*), 451
The phenomenology of body image distortions induced by regional anaesthesia (Paqueron *et al.*), 702
Phonological representation from semantic information (Usui *et al.*), 632
Photosensitivity and gamma synchrony (Parra *et al.*), 1164
Pick's disease, gliosis (Schofield *et al.*), 827
PMP22 duplication in Charcot–Marie–Tooth disease (Hattori *et al.*), 134
Pneumococcal meningitis in adults: spectrum of complications and prognostic factors in a series of 87 cases (Kastenbauer and Pfister), 1015
Postural control in Parkinson's disease (Maurer *et al.*), 1146
Potassium channel genes in neonatal convulsions (Singh *et al.*), 2726
Potentially adaptive functional changes in cognitive processing for patients with multiple sclerosis and their acute modulation by rivastigmine (Parry *et al.*), 2750
Prednisolone liposomes in EAE (Schmidt *et al.*), 1895
Prefrontal cortex and emotion (Hornak *et al.*), 1691
Prefrontal cortex and pain modulation (Lorenz *et al.*), 1079
Prefrontal cortex and saccades (Pierrot-Deseilligny *et al.*), 1460
Presenilin-1 mutations in Alzheimer's disease (Brooks *et al.*), 783
Preserved myelin integrity and reduced axonopathy in connexin32-deficient mice lacking the recombination activating gene-1 (Kobsar *et al.*), 804
Primary progressive multiple sclerosis: a 5-year clinical and MR study (Ingle *et al.*), 2528
Prion diseases (Hill *et al.*), 1333
Prion protein isoforms in mouse brain (Beringue *et al.*), 2065
Prognosis of vertebrobasilar transient ischaemic attack and minor stroke (Flossmann and Rothwell), 1940
Prognostic factors of CNS tumours in Neurofibromatosis 1 (NF1): a retrospective study of 104 patients (Guillamo *et al.*), 152
Progressive non-fluent aphasia is associated with hypometabolism centred on the left anterior insula (Nestor *et al.*), 2406
Progressive prosopagnosia, configurational processing (Joubert *et al.*), 2537
Progressive striatal and cortical dopamine receptor dysfunction in Huntington's disease: a PET study (Pavese *et al.*), 1127
Propriospinal relay in stroke (Mazevet *et al.*), 988
Prosopagnosia and fusiform face area (Rossion *et al.*), 2381
Prosopagnosia and hyperfamiliarity for unknown faces (Vuilleumier *et al.*), 889
Prosopagnosia and right temporal atrophy (Gainotti *et al.*), 792
Prosopagnosia, progressive (Joubert *et al.*), 2537
Protein expression changes in spinal muscular atrophy revealed with a novel antibody array technology (Anderson *et al.*), 2052
Proteinopathies (Josephs *et al.*), 2291
Pure agnosia for mirror stimuli after right inferior parietal lesion (Priftis *et al.*), 908
Pure lateral medullary infarction: clinical–radiological correlation of 130 acute, consecutive patients (Kim), 1864

Recognition disorder and right temporal atrophy (Gainotti *et al.*), 792
Regional heterogeneity of cellular prion protein isoforms in the mouse brain (Beringue *et al.*), 2065
Regulation of gene expression in experimental autoimmune encephalomyelitis indicates early neuronal dysfunction (Nicot *et al.*), 398
Remote changes in cortical excitability after stroke (Bütefisch *et al.*), 470
Remyelination by olfactory ensheathing cell transplant (Lakatos *et al.*), 598
Remyelination following repeat demyelination (Penderis *et al.*), 1382
Respiratory chain disorders in children (Skladal *et al.*), 1905
Response inhibition, role of caudate and thalamus (Aron *et al.*), 713
Restless legs syndrome locus (Bonati *et al.*), 1485
Reversal learning (Fellows and Farah), 1830
Revisiting the dissociation between singing and speaking in expressive aphasia (Hébert *et al.*), 1838
Right temporal atrophy and prosopagnosia (Gainotti *et al.*), 792
Rivastigmine in multiple sclerosis (Parry *et al.*), 2750
Rod-core myopathy locus on chromosome 15 (Gommans *et al.*), 1545
Role of the hippocampal system in associative learning beyond the spatial domain (Brasted *et al.*), 1202
Rostral anterior cingulate cortex dysfunction during error processing in schizophrenia (Laurens *et al.*), 610
RYR1 mutations in central core disease (Romero *et al.*), 2341

Saccades and prefrontal cortex (Pierrot-Deseilligny *et al.*), 1460
Schizophrenia, error processing (Laurens *et al.*), 610
Schwann cell autoimmunoreactivity (Kwa *et al.*), 361
Seizure focus and remote hippocampal abnormalities (Scott *et al.*), 1968
Seizure onset EEG activity (Wendling *et al.*), 1449
Seizure prediction in epilepsy (Aschenbrenner-Scheibe *et al.*), 2616

Semantic memory in Alzheimer's disease (Grossman *et al.*), 292
Semantic organization and blindness (Noppeney *et al.*), 1620
Semantic processing of geographical names (Crutch and Warrington), 1821
Semantic processing of kanji and kana (Usui *et al.*), 632
Sensorimotor cortex mapped to stroke lesion (Crafton *et al.*), 1650
Sensorimotor plasticity in writer's cramp (Quartarone *et al.*), 2586
Sensorimotor processing in Parkinson's disease (Sailer *et al.*), 1883
Sensory discrimination in dystonia (Molloy *et al.*), 2175
Sensory function in spinal cord injury patients with and without central pain (Finnerup *et al.*), 57
Sensory inputs and phantom limb awareness (Hunter *et al.*), 579
Sequential movements and dopamine release (Goerendt *et al.*), 312
Seronegative myasthenia gravis with anti-MuSK antibodies (Evoli *et al.*), 2304
Severe infantile neuropathy with diaphragmatic weakness and its relationship to SMARD1 (Pitt *et al.*), 2682
Severity of gliosis in Pick's disease and frontotemporal lobar degeneration: tau-positive glia differentiate these disorders (Schofield *et al.*), 827
Short and long latency afferent inhibition in Parkinson's disease (Sailer *et al.*), 1883
Sildenafil-induced migraine (Kruuse *et al.*), 241
Singing and speaking in aphasia (Hébert *et al.*), 1838
Slowly progressive defect in recognition of familiar people in a patient with right anterior temporal atrophy (Gainotti *et al.*), 792
Small-fibre neuropathy in Guillain–Barré syndrome (Pan *et al.*), 386
Social and emotional intelligence (Bar-On *et al.*), 1790
Sodium channel α subunit type 1 in childhood epilepsies (Fujiwara *et al.*), 531
Sodium channels in EAE optic nerve (Craner *et al.*), 1552
Source versus content memory in patients with a unilateral frontal cortex or a temporal lobe excision (Thaiss and Petrides), 1112
Spastic paraparesis in familial Alzheimer's disease (Brooks *et al.*), 783
Spasticity, reciprocal facilitation (Crone *et al.*), 495
Spatial coding of semantic information: knowledge of country and city names depends on their geographical proximity (Crutch and Warrington), 1821
Spatial decorrelation during fast EEG ictal activity (Wendling *et al.*), 1449
Spatial discrimination in dystonia (Molloy *et al.*), 2175
Spatial disorientation in Alzheimer's disease (Kavcic and Duffy), 1173
Speaking and singing aphasia (Hébert *et al.*), 1838
Specific brain processing of facial expressions in people with alexithymia: an $H_2{}^{15}O$-PET study (Kano *et al.*), 1474
SPECT perfusion changes during complex partial seizures in patients with hippocampal sclerosis (Van Paesschen *et al.*), 1103
The spectrum of exercise tolerance in mitochondrial myopathies: a study of 40 patients (Taivassalo *et al.*), 413
Speech and language disorder, *FOXP2* expression (Lai *et al.*), 2455
Speech comprehension, temporal lobe activity (Crinion *et al.*), 1193
Speech lateralization and epilepsy (Janszky *et al.*), 2043
Spinal cord injury and sensory function (Finnerup *et al.*), 57
Spinal cord injury, minocycline neuroprotection (Wells *et al.*), 1628
Spinal cord injury, reciprocal facilitation (Crone *et al.*), 495
Spinal muscular atrophy (Van den Berg-Vos, *et al.*), 1036
Spinal muscular atrophy, protein changes (Anderson *et al.*), 2052
Spinal muscular atrophy with respiratory distress type 1 (Pitt *et al.*), 2682
Spinocerebellar ataxia and kinaesthesia (Maschke *et al.*), 2312
Spinocerebellar ataxia type 22 (Chung *et al.*), 1293
Spinocerebellar ataxias, thalamic involvement (Rüb *et al.*), 2257
Sporadic Creutzfeldt–Jakob disease (Hill *et al.*), 1333
Sporadic idiopathic ataxia and gluten sensitivity (Hadjivassiliou *et al.*), 685
Sporadic lower motor neuron disease with adult onset: classification of subtypes (Van den Berg-Vos, *et al.*), 1036
Staying on the job: the frontal lobes control individual performance variability (Stuss *et al.*), 2363
Stress-activated protein kinases in diabetes (Middlemas *et al.*), 1671
Striatal connectivity and dopaminergic drugs (Honey *et al.*), 1767
Striatal dopamine release induced by repetitive transcranial magnetic stimulation of the human motor cortex (Strafella *et al.*), 2609
Stroke and cortical excitability (Bütefisch *et al.*), 470
Stroke and joint coordination (Reisman and Scholz), 2510
Stroke and trunk movements (Spinazzola *et al.*), 2656
Stroke lesion mapped to normal function (Crafton *et al.*), 1650
Stroke, minor (Flossmann and Rothwell), 1940
Stroke outcome, neural correlates (Ward *et al.*), 1430
Stroke patients have selective muscle weakness in shortened range (Ada *et al.*), 724
Stroke, propriospinal relay (Mazevet *et al.*), 988
Stroke, reciprocal facilitation (Crone *et al.*), 495
Stroke recovery, neural correlates (Ward *et al.*), 2476
Subthalamic 300 Hz rhythm in Parkinson's disease (Foffani *et al.*), 2153
Subthalamic nucleus responses to behavioural cues (Williams *et al.*), 1975
Subthalamic nucleus stimulation in Parkinson's disease (Maurer *et al.*), 1146
Subthalamotomy in Parkinson's disease (Patel *et al.*), 1136
Syringomyelia-like phenotype of Tangier disease (Züchner *et al.*), 920

T cell clones in neurological immune-mediated disorders (Murano *et al.*), 20
T-cell cytotoxicity in Guillain–Barré syndrome (Wanschitz *et al.*), 2034
T_1 black holes in multiple sclerosis (Bagnato *et al.*), 1782
Tangier disease, with *ABC1* mutation (Züchner *et al.*), 920
Tau gene mutations and frontotemporal dementia (Stanford *et al.*), 814
Tau gene mutations in frontotemporal dementia (Rosso *et al.*), 2016
Tau-positive glia in frontotemporal dementia (Schofield *et al.*), 827
Temporal lobe epilepsy, mesial temporal damage (Bernasconi *et al.*), 462
Temporal lobe excision and memory (Thaiss and Petrides), 1112
Temporal lobe regions engaged during normal speech comprehension (Crinion *et al.*), 1193
Thalamic involvement in a spinocerebellar ataxia type 2 (SCA2) and a spinocerebellar ataxia type 3 (SCA3) patient, and its clinical relevance (Rüb *et al.*), 2257

Thalamus imaging in epilepsy (Bernasconi *et al.*), 2447
Theories of developmental dyslexia: insights from a multiple case study of dyslexic adults (Ramus *et al.*), 841
Tissue plasminogen activators in multiple sclerosis (Gverić *et al.*), 1590
TNF-induced death of adult human oligodendrocytes is mediated by c-jun NH_2-terminal kinase-3 (Jurewicz *et al.*), 1358
Torsional eye movement responses and age (Jahn *et al.*), 1579
Transcranial magnetic stimulation in dystonia (Siebner *et al.*), 2710
Transient global amnesia, working memory (Quinette *et al.*), 1917
Transient ischaemic attack, vertebrobasilar (Flossmann and Rothwell), 1940
Tremor, resting, in Parkinson's disease (Timmermann *et al.*), 199
Trigeminal C-fibre function (Cruccu *et al.*), 2246
Trunk movements following stroke (Spinazzola *et al.*), 2656
Trypanosome-induced meningoencephalitis (Kennedy *et al.*), 1683
Tumour necrosis factor-induced oligodendrocyte death (Jurewicz *et al.*), 1358
Tumours, cerebellar, neuropsychological outcome (Steinlin *et al.*), 1998
Tumours of CNS in Neurofibromatosis 1 (Guillamo *et al.*), 152
Unexpected amnesia: are there lessons to be learned from cases of amnesia following unilateral temporal lobe surgery? [review] (Kapur and Prevett), 2573
Unilateral subthalamotomy in the treatment of Parkinson's disease (Patel *et al.*), 1136
Unmyelinated trigeminal pathways as assessed by laser stimuli in humans (Cruccu *et al.*), 2246
Urbach–Wiethe disease (Siebert *et al.*), 2627

Vaccination with amyloid-β peptide induces autoimmune encephalomyelitis in C57/BL6 mice (Furlan *et al.*), 285
Variant Creutzfeldt–Jakob disease (Kapur *et al.*), 2693
Vascular neuropathy (Said *et al.*), 376
Ventral occipital lesions impair object recognition but not object-directed grasping: an fMRI study (James *et al.*), 2463
Ventromedial frontal cortex mediates affective shifting in humans: evidence from a reversal learning paradigm (Fellows and Farah), 1830
Ventromedullary NK-1 receptors in multiple system atrophy (Benarroch *et al.*), 2183
Vertebrobasilar transient ischaemic attack (Flossmann and Rothwell), 1940
Vestibulo-ocular reflex modulation (Naito *et al.*), 1562
Vibration-induced ocular torsion and nystagmus after unilateral vestibular deafferentation (Karlberg *et al.*), 956
Visceral sensation, effect of emotional context (Phillips *et al.*), 669
Visual attention and right parietal damage (Battelli *et al.*), 2164
Visual deprivation and semantic organization (Noppeney *et al.*), 1620
Visual form agnosia, fMRI study (James *et al.*), 2463
Visual magnocellular deficits in dyslexia [letter] (Chase and Stein), E2 (in Part 9)
Visual magnocellular deficits in dyslexia [reply to letter] Visual neglect, anatomy (Mort *et al.*), 1986
Visual perception in Alzheimer's disease (Kavcic and Duffy), 1173
Visual–vestibular interaction (Naito *et al.*), 1562
Voice perception in external auditory space (Hunter *et al.*), 161
Voluntary drive in motor learning (Lotze *et al.*), 866

Wernicke's area in nonverbal sounds and language (Saygin *et al.*), 928
Working memory and executive functions in transient global amnesia (Quinette *et al.*), 1917
Writer's cramp, sensorimotor plasticity (Quartarone *et al.*), 2586

X-linked locus and amygdala development (Good *et al.*), 2431
X-linked mental retardation from *OPHN1* mutation (Bergmann *et al.*), 1537
